Brought my hemoglobin up quick!

By [Amazon Customer](#) on January 14, 2018

Verified Purchase

My hemoglobin was at a 7 after one packet went to a 10.1 then I took another packet it's at 13. This stuff works and it works quick I went from 10.1 to a 13 in one day. Great stuff!!

It was very good for health (Imune & Digest)

By [Joe Chung](#) on September 19, 2016

Verified Purchase

It was very good for health (Imune & Digest). But price was a little bit high price. I want to eat (buy) every month. I hope that Atomy co. make new big discount program for regular long-term customers because of I want to eat (take) 12-cases per year (one case once a month).

Taste is horrible. For some reason

By [Amazon Customer](#) on September 27, 2017

Verified Purchase

Taste is horrible. For some reason, I thought this would be in capsule form. Perhaps I did not read thoroughly.

Does wonders for my body! Haven't been sick since taking this!

By [PlanetJanet](#) on February 7, 2017

Verified Purchase

I got introduced to these by my mom 2 yrs ago not knowing anything about it. I didn't think it would do anything but I took it randomly so I don't waste something my mom gave me. I knew they were expensive. Well, this ended up changing my life and I'm a believer now!! To give you brief history, I've always had very weak immune system since I was little. I was guaranteed to catch anything 2-3 times a year my whole life. If anyone had a cold, I'd get one for sure. If I traveled, I was guaranteed to get sick afterwards. I even was disabled for a few years when I turned 30 with Chronic Fatigue Syndrome which is a immune system dysfunction. I've recovered

mostly from that over the years. But my immune system has always been weak. 2 years prior to taking this I noticed my colds/flu were getting more severe and lasting longer each time I got it. My coughs were lasting 3 months! Then I came across this. You're supposed to take it 2 times a day. I only took 1 a day randomly so wasn't even every day. I would remember to take one for a few days then forget for a few. Sometimes only 1 a week, etc... So this one month worth my mom gave me lasted nearly 5 months or so. I noticed nothing in terms of energy or anything I didn't think anything of it. Well, that was the first winter I actually didn't get a cold and I realized it. So I continued to buy it after and only took randomly. I haven't caught a cold or flu in the last 2 years which is a miracle for me!!! I don't know what all it does but I know for sure it helps my immune system when I don't even take it every day. We just had a huge flue epidemic in Seattle area where everyone I knew had been extremely ill with the flu including my own husband who rarely gets sick.

All my friends and neighbors have been sick. I still haven't gotten sick yet. Sometimes I may wake up with a sore throat or feeling of coming down with something, Then I increase my dose. Or I have to fly, I increase my dose temporarily. Even then my one month supply usually lasts me 5 months or so. It still helps me!!! So I'm taking this for the rest of my life. I'm a believer. If you're generally healthy you probably won't notice anything and think it's doing nothing. But let me tell you. It does wonders for me even at a low random doses. I'm thankful my mom got me on this!

STOPPED MY FOOD CRAVINGS

By [moe](#) on June 24, 2015

My mom swore by this product and talked about how excellent it was for the blood and cancer. I said i don't have cancer but i am anemic. It said to take 2xs of the day but the taste was terrible so i could only stomach this stuff once. It taste like a bad version of v8. No one ever talks about the taste of this stuff. I decided to give it a try and i did notice something. I always struggled with my weight; not because i didn't work out but i had strong food cravings. I would eat when I wasn't even hungry. I started taking the product not for energy or anything but only to give it a try for a couple of days and say that " it did not work". After the 2nd day, I had almost no food cravings and no desire to eat junk food. I was actually eating to live and not living to eat. I honestly felt that i did not want to eat anything that i saw someone else eating. I'm assuming it was a chemical imbalance in my system and hemohim helped. The down side is that i skipped one night and the cravings are starting to return but if this is all i need to take away my food cravings, it's worth it and cheaper than most things that i have bought. With hemohim, eating better and working out i feel i can get back to a healthier size faster. I didn't see any reviews about this and i am not saying that it can help other people this way but it did help me. I gave it 4 stars because it did give me constipation. So i needed to take a laxative tea after a few days. I also have to eat more fruits and vegetables. Also it taste terrible.

Definitely Ordering This Again!

By [Leann](#) on October 25, 2016

Verified Purchase

I bought this for my grandmother because she had heard about this product from a friend. She tried it and she loved it. After a few weeks, she said she notice a huge change in herself. She was more focus and had more energy to do activities. Last night she asked me to order her some more as well as for my grandfather. She got him drinking this stuff too haha. I guess it must be pretty good.

Well grams, you got it! Just order a three more packages of this. Don't think I would personally buy this for myself. The smell alone makes me uninterested, but my grandparents must like it a lot to ask me to order this for them again.

Good product

By [Christopher Matthews](#) on October 15, 2016

I was a little skeptical of the claims at first, but after using it for a week or so, I am noticing a difference in energy and mental clarity. I feel a bit more awake and a little less scattered. Just mix it with juice or something that has a bit of sweetness, otherwise it tastes like sadness.

My two cents...

By [Terri Kim](#) on May 15, 2014

Natural herbs will naturally accumulate "heavy metals" from soil, and thus cancer patients are advised to stay away from such natural remedies.

However, because Hemohim is intentionally modified for purification purposes, it is considered safe enough for even a cancer patient to intake. (The same company makes a cosmetics line which also leverages this technology, where I've seen amazing results.) I heard that the Korea Atomic Energy Research institute kind of stumbled upon this technology, and they are commercializing it by spinning this off to a company called "Atomy". <- Note the name...

Sorry that I couldn't post this before the other reviewer threw it away because it was genetically modified.

My mom had a cyst in her womb that the doctor wanted to continue to observe, but she religiously took Hemohim and at her next doctor's visit, the doctor was surprised to see the cyst had significantly reduced in size and asked her what happened. She now is an avid believer in this product, and she has me converted as well =)

my asthma got better. I mean

By [Charles S.](#) on March 31, 2015

It's now sold in Canada as NHP(Natural Health Product) for a lot less price now and I don't need to order from Amazon anymore. I used to be a life-long asthma patient who spent at least a month in the hospital for my severity. After around 2 weeks of taking 4 a day, my asthma got better. I mean, the phlegms just kept coming out(it was gross!) I don't go to my doc anymore. I recommended to my friend who suffered from high blood sugar/pressure and he got better, too. I drink this when I have to go for a long haul without much sleep because it gives me energy and I am usually the only person in my unit who skipped the flu. I realize strengthening your body on a cell level means to increase the capacity to be better and do more. This product surely does that. But sadly, I order from the company directly for much less price, not here anymore.

Does help with excessive sweating.

By [nzomatrix](#) on November 7, 2015

Someone who was taking this mentions that it helps with hyperhidrosis(excessive sweating) so I have been taking this twice a day. The taste is bad as it taste like a bunch of herbs made into a paste gel. It has helped with my sweating hands and feet although has not cure it. I will continue taking this and see how things go.

Energizer!!

By [Amazon Customer](#) on October 18, 2013

This will give you so much energy, you will get so much work done for the day! Plus, I heard so many people get better from being sick with diabetes, cancer, blood related diseases and arthritis, etc. It does not guarantee anything but you should definitely give it a try . I can only say that it is truly annointed with God's goodness!
